

The BlueMed Shoe Cover Dispenser

The BlueMed shoe cover dispenser is designed to install shoe covers in seconds... totally hands free! It is specially crafted for high volume usage with a high capacity for shoe cover storage. It also offers a holding handle for added convenience. This dispenser is easy to use and requires no electricity, maintenance or lubrication to function.

A variety of shoe cover types are offered for this dispenser to satisfy almost every need.

With its stainless steel sidings, it adds a new dimension of elegance and professionalism to your facility or clinic. It is extremely practical for medical, pharmaceutical, industrial or similar environments and especially for GMP facilities.

Dispenser
SKD-1007

Easy to use, hands free and a variety of shoe covers to choose from.

Your BlueMed Dispenser Has Shoe Covers For Every Application

Bubbly

The CPE Bubbly Disposable Shoe Covers are made of a low density CPE (chlorinated polyethylene) material with a bubbly surface to give them traction and antiskid properties. They are economical, lint-free, waterproof and excellent for short term usage. They come in one size that fits most shoes and are packaged in bundles ready for use in the dispenser.

660 units/case SKC-0102-M | 1980 units/case SKC-0102-B

NonWoven

The NonWoven Non-Skid (NWNS) Disposable Shoe Covers are made of a polypropylene fabric with a non-skid print which makes them fit for all uses and floors. They come in one size that fits most shoes and are packaged in bundles ready for use in the dispenser. They are ideal for medical and pharmaceutical facilities, laboratories, pre-cleanroom gowning and general hygiene.

600 units/case SKN-0002-M | 1800 units/case SKN-0002-B

CPE Bonded

The CPE Bonded Disposable Shoe Covers are designed for industrial and more demanding applications. These shoe covers are made with a polypropylene fabric bonded to a CPE (chlorinated polyethylene) layer. This design makes them waterproof, and fit for the more demanding uses. They come in one size that fits most shoes and are packaged in bundles ready for use in the dispenser.

420 units/case SKB-1003-M | 1260 units/case SKB-1003-B

Super Booties

The White Super Booties Disposable Shoe Covers are water resistant and provide excellent grip. These shoe covers are made of a strong polypropylene fabric with an antiskid coating. They are a good alternative to the expensive Tyvek® shoe covers. The White Super Booties are very popular in pharmaceutical facilities, laboratories, and food industries.

480 units/case SKC-1001-M | 1440 units/case SKC-1001-B

BlueMed also manufactures a full line of Shoe Covers for Professionals available in bags or dispensing boxes.
